Tutorial: Composition Book Cover With Enclosed Snap Closure

How To Make A Felt Or Vinyl Cover With Enclosed Snap Closure For A Composition Book

Photos show construction of a cover for a 3.25" x 4.5" mini composition book

READ THROUGH ALL INSTRUCTIONS BEFORE BEGINNING

Supplies Needed:

Vinyl or Felt for Outside

- (1) 8"x 6"
- (2) 3" x 6"
- (2) 1.5" x 4" scraps for tab extension

Felt or Vinyl Lining Fabric

- (1) 8"x 6"

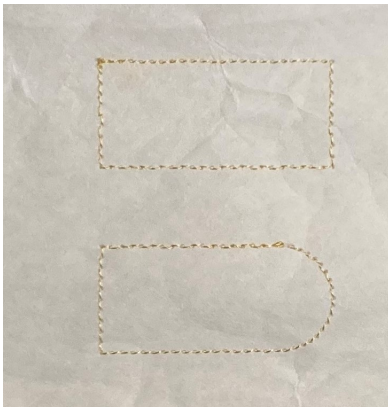

Snaps- Long prong size recommended

Snap Setter Tool

INSTRUCTIONS

FIRST HOOPING: SNAP EXTENSION

Hoop Tearaway Stabilizer and sew placement stitches.

Tape a piece of 1.5" x 4" vinyl or felt to the top and the bottom of the hoop, covering the placement stitches, and secure with tape.

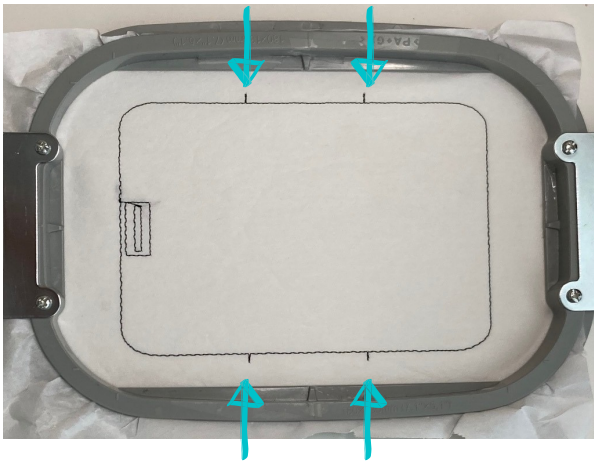

Sew the final color steps, remove from hoop, and trim around all edges.

INSTRUCTIONS

SECOND HOOPING: MAIN BOOK COVER

Hoop cutaway stabilizer and sew the first step. This shows you where to place your main vinyl piece, as well as placement stitches you will use later to line up the back vinyl pieces. The small rectangle on the left is where you will add the snap extension.

Tape the extension piece over the small rectangle as shown. Tape securely, and sew the next color which secures the extension to the stabilizer.

Add the 8" x 6" piece of vinyl or felt and secure with tape.

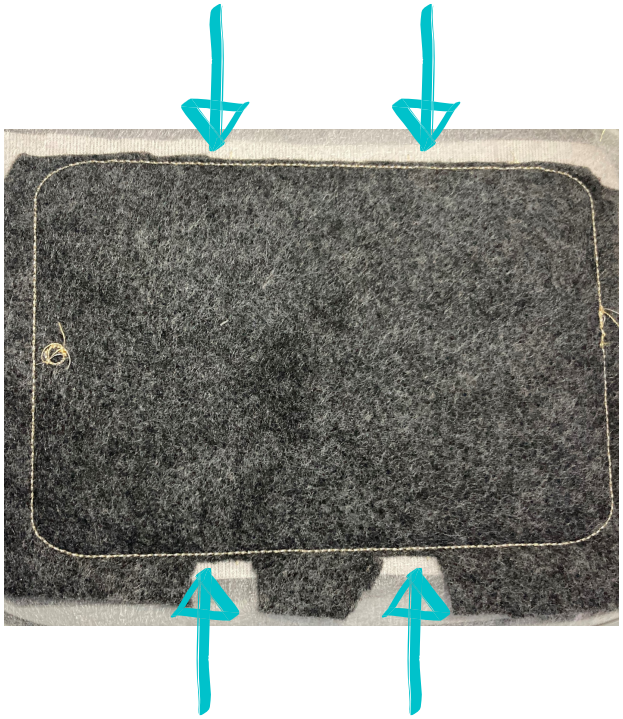

Sew all the decorative steps, and stop after the step that sews the center vertical lines

Turn hoop to back and lay the 8" x 6" piece of vinyl or felt over entire rectangle design. Secure with tape or pins. Sew next step which bastes this piece in place.

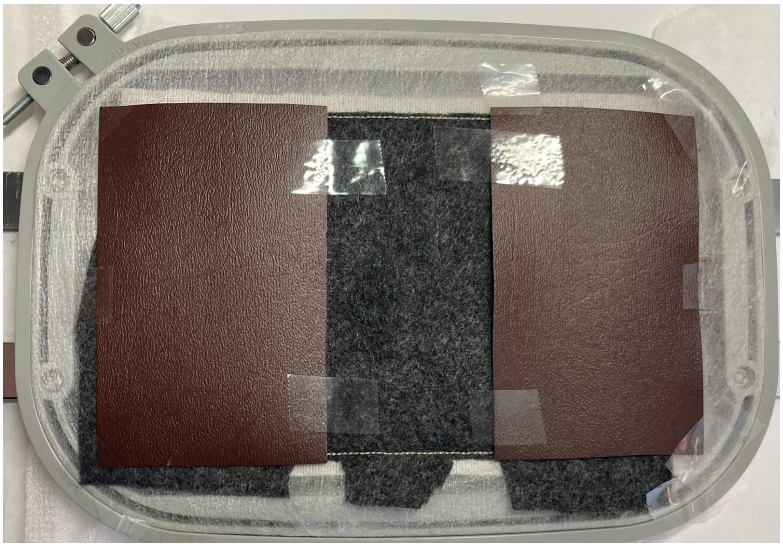

Sew the next color step which is the placement stitch for the front snap.

(Back of Hoop shown)
Trim felt away so you can see the original placement stitches that show you where to add the back vinyl pieces.

Use placement stitches to line up the two pieces of 3" x 6" vinyl, Secure well with tape

The next color step secures both of these pieces. I recommend slowing your machine down and watching carefully as the machine sews this step.

Remove from hoop and trim, being extra careful while trimming around the tab extension.

Add snaps, insert your composition book, and enjoy your finished project!
