# MAIN PAGE INSTRUCTIONS

- Hoop stabilizer.
- Stitch color 1.
- Pin felt to stabilizer
- Stitch color 2 to secure felt.
- Stitch colors 3-5
- Pin or tape the ribbon attached to the worm to the placement stitch
- Stitch color 6 to secure the ribbon.

- Move the worm piece out of the way and stitch color 7
- This step stitches the placement stitches for the pear piece.

- Lay the pear piece on top of the felt and line up the notches with the placement stitches.
- Stitch color 8. This secures the pear to the main page.
- You may trim the notches now or after you remove from the hoop later.

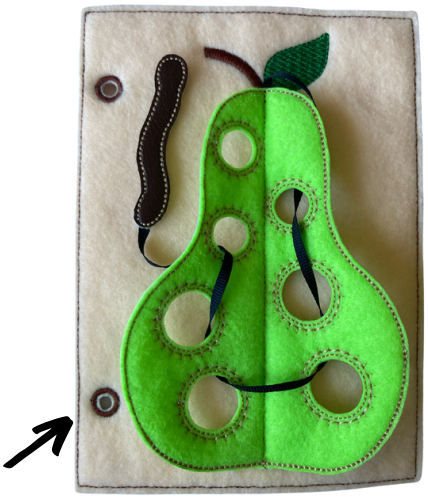

Weave the worm into the pear piece so it does not get caught in the final stitches..

- Remove hoop from machine. Turn to back side of hoop and pin or tape second 6" x 8" piece of felt.
- OPTIONAL: If you'd like to add a bonus pocket, stitch color 9, which is a fast straight stitch that secures the back piece and will help you line up the pocket. Tape an additional 6" x 6" piece of felt, pinning it about an inch below the top line of the outline.
- Sew color 10- final heavy duty outline stitch.
- Sew color 11- buttonholes.
- Remove from hoop and trim close to all outer edges

Use a pen to mark the center of the circles. This will help you avoid cutting the threads when you cut out the holes with the Cropadile
