Pumpkin Banner Tutorial

HOOP TEARAWAY OR CUTAWAY STABILIZER

Placement stitch	Lay piece of stem colored felt over stem placement lines and stitch tack down stitches. Trim close to bottom of stem	Lay piece of pumpkin colored felt over the pumpkin placement lines and sew the decorative stitches	Use outline thread color to sew.	Turn hoop over and add a piece of felt to back of hoop and pin in place. Return to hoop and sew using stem colored thread	Sew using same thread color as pumpkin decorative stitches.

Remove from hoop and trim around the edges. Using a safety pin, thread ribbon or rope through the two openings.

Optional: Heat seal the edges to increase durability.

How to heat seal using a lighter.
